NatureConnect

Lighting inspired by nature

We have become the
indoor generation

On average, we spend
more than **90%** of our
time indoors

We are living in an
'always-on' world

87% of workers say
they are stressed

Source: Cigna 360 Wellbeing Survey, Cigna, 2019

Companies increasingly realize that investing in the **Health & Wellbeing of their employees** is the best investment in their business

Our bodies are made to live in sync with nature

Recent research shows that nature has a huge impact on our physiological, mental and emotional wellbeing.

Workers in offices with natural elements such as plants and sunlight report:

- +15%**
higher level of wellbeing
- + 6%**
higher level of productivity
- +15%**
higher level of creativity

Source: Chief Wellbeing Officer
by Steven MacGregor, 2018 

Let natural light into your life again

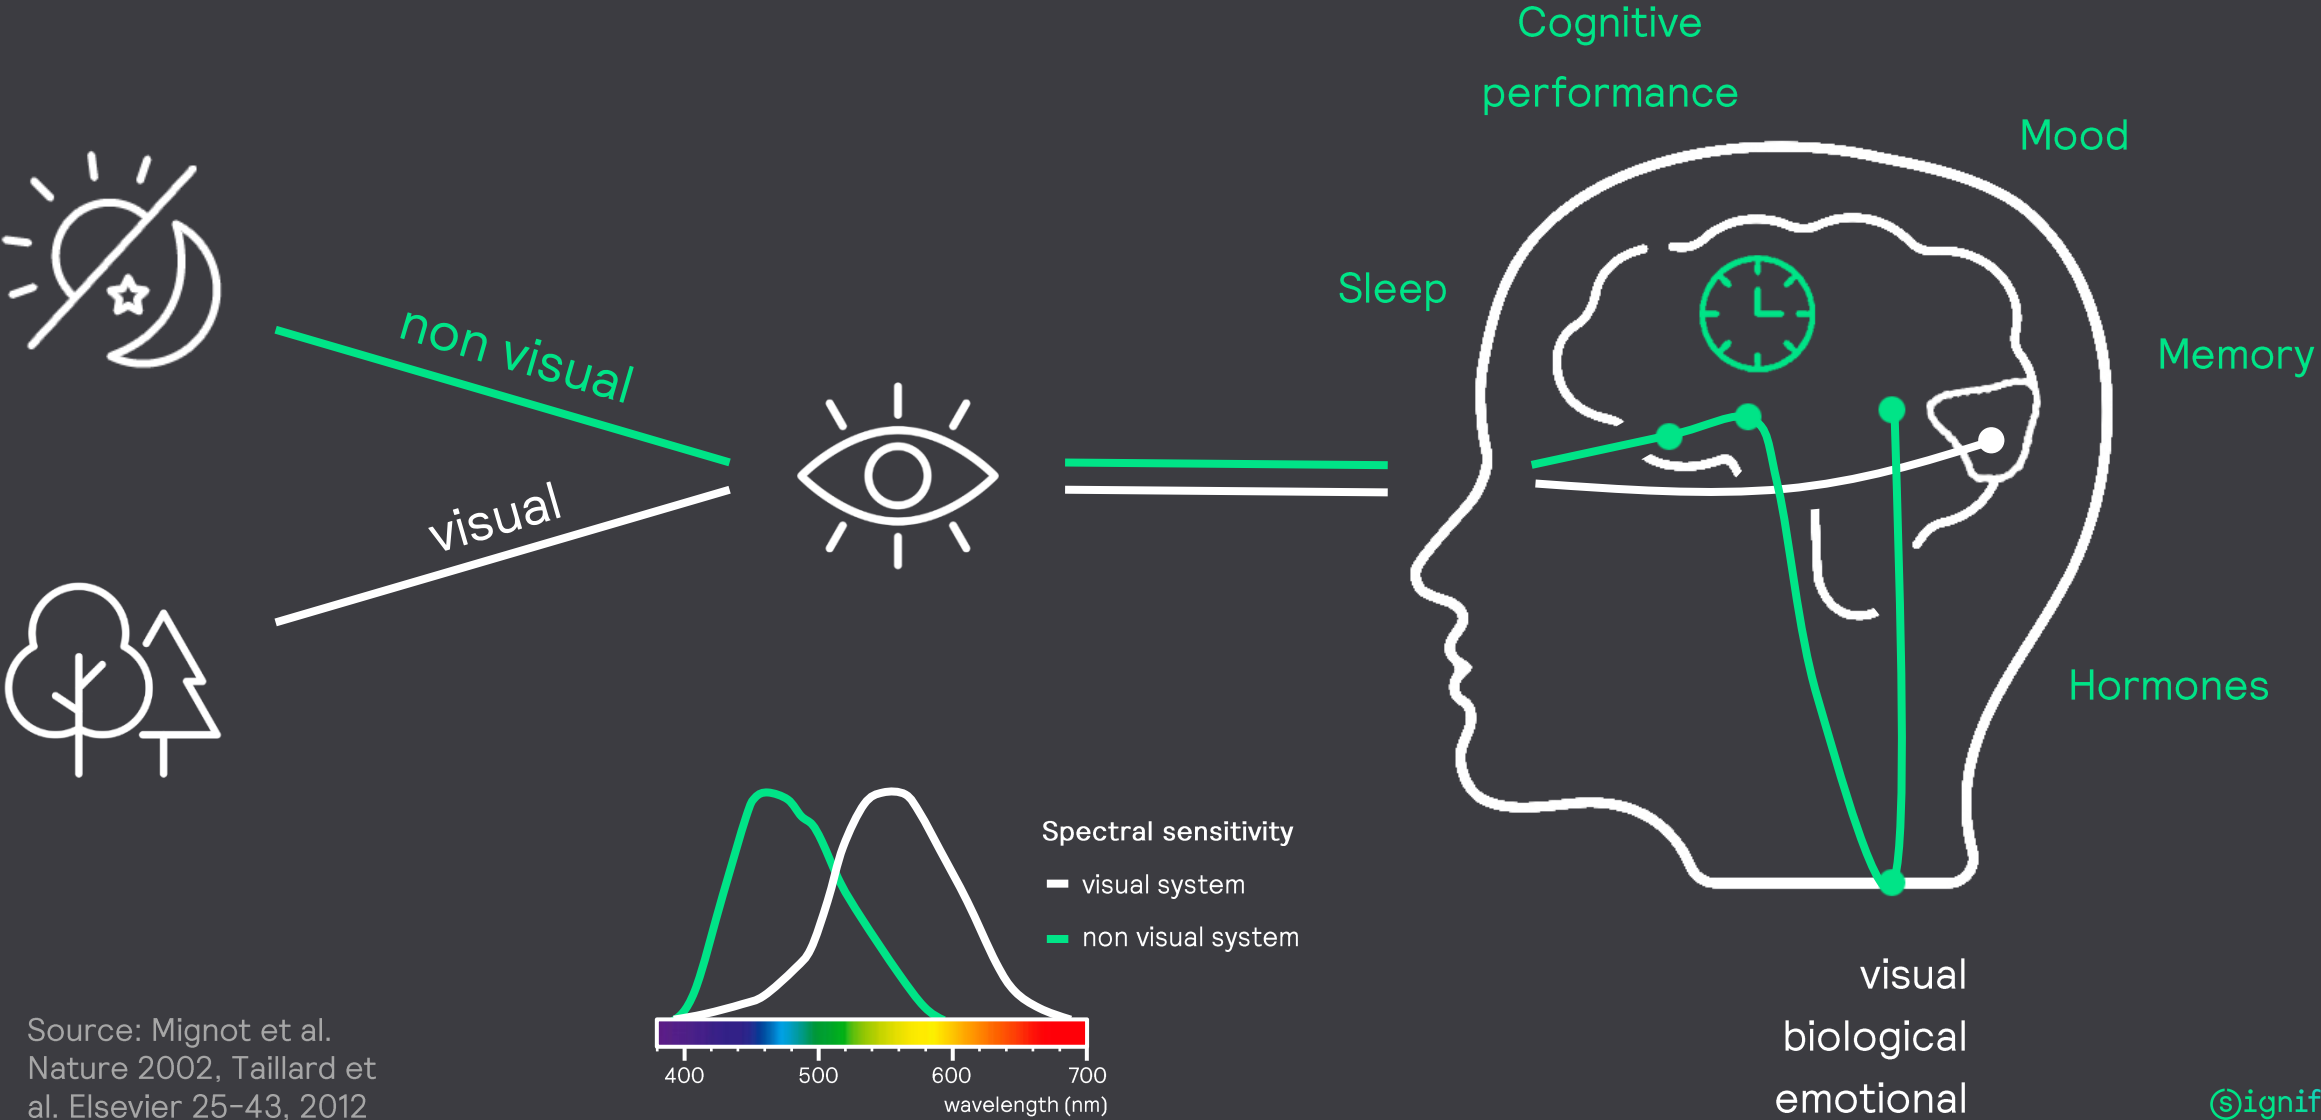

Indoors most of us are not getting the necessary doses of daylight to feel happy and healthy.

The exposure to daylight is very important for our:

- Mood
- Energy levels
- Comfort
- Productivity
- Quality of sleep
- Our health and wellbeing in general

Light enables us to see better, function better and feel better
